

Mine Action Update

Impact of Landmines and ERW on Civilians in Hudaydah Governorate

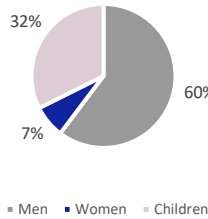

Note: numbers in this document are as reported by multiple sources and have not been independently verified by UNMHA.

In February 2024, UNMHA recorded three (3) landmine and explosive remnants of war (ERW) related incidents, resulting in 7 civilian casualties (incl. 2 children injured) in the Hudaydah governorate. The number of incidents is the lowest since December 2021 and the number of casualties is among the lowest in the past 12 months. Casualties were reported in Al-Hali, At-Tuhayta and Al-Khawkhah districts.

Mine Action Advocacy and Coordination Activities

In February 2024, the UNMHA Mine Action team continued to engage with UNCT, key INGOs and national entities in Hudaydah, Sanaa and Aden, and provided coordination as well as technical support, including advocacy and led 30 different mine action activities.

The UNMHA Mine Action Adviser visited a center to observe rehabilitation and support efforts provided to civilians in need of wheelchairs, prosthetics and medical support.

The UNMHA delegation, led by the Deputy Head of Mission, visited the YEMAC Training centre in Aden.

The UNMHA delegation, led by the Deputy Head of Mission, met with the YEMAC Director in Aden.
