**Statement by the Head of the United Nations Mission to Support the
Hudaydah Agreement and Chair of the Redeployment Coordination
Committee Lt. Gen. Abhijit Guha**

Hudaydah, Yemen, 29 August 2020: The Head of the United Nations Mission to Support the Hudaydah Agreement (UNMHA) and Chair of the Redeployment Coordination Committee (RCC), Abhijit Guha is alarmed over the escalation of violence in the Governorate of Hudaydah. The intense fighting that occurred around Hudaydah city in the morning of 27 August is of particular concern.

General Guha also expresses concern about the repeated aerial strikes in al-Urj area, located between Hudaydah city and the port of al-Salif, between the 16 August and 23 August. He is gravely worried about the reports received of the use of cluster munition during one of these air attacks.

The RCC Chair calls on all parties to desist from any actions that is detrimental to the implementation of the Hudaydah Agreement reached in Stockholm on 13 December 2018. He urges the parties to refrain from further activities that endanger the lives of civilians in the Governorate.
